Kycon Introduces RJ45 with Integrated Magnetics

Morgan Hill, CA – Kycon now offers three new RJ45 modular jacks with integrated magnetics for use in 10/100-Base-T Ethernet applications. Available configurations include a right angle single port, tab down with LEDs (G1LX series); right angle single port, tab up with LEDs (G2LX series); and a vertical mount with LEDs (G3LX series).

Each series can be made with alternative magnetic schematics, LED and shield and plating options; minimums will apply. Please contact Kycon for specs, pricing and samples.

By integrating the magnetics components into the traditional modular jack connector, designers can realize space and applied cost savings, and improved electrical performance. Kycon will continue to expand the RJ45 with integrated magnetics offerings including gigabit Ethernet options, and custom options.

Part Numbers:

G1LX-188S7-BB-YG1-50 8P8C MODJACK, TAB DOWN, SHIELDED W/ 10/100 MAGNETICS, YELLOW AND GREEN LED, IN LNE LED LEADS, 50U

G2LX-188S1-CC-GY1-50 8P8C MODJACK, TAB UP, SHIELDED W/ 10/100 MAGNETICS, GREEN AND YELLOW LED, IN LINE LED LEADS, 50U

G3LX-188S1-FF-GY1-50 8P8C VERTICAL JACK W/MAGNETICS, GREEN/YEL LED, 50U GOLD

Applications:

- Networking equipment
- Computer equipment
- Telecommunications equipment
